## Lubricants - Oil (ctd)

ATV City Part No.	Description	Quantity
210.0100	Silicone Spray	200ml
210.0110	Silicone Spray	400ml

Lubricates and protects. Renovates plastic, rubber and wooden surfaces, giving them a new shine. CRC Silicone provides excellent lubrication, especially between different materials. Prevents hardening and freezing of rubber. Also lubricates plastic assemblies.

ATV City Part No.	Description	Quantity
210.0113	Multilube	500ml

A lubricant with an adequate penetration and an extremely good resistance to splash water. Resists vibrations, extreme pressure and peak forces. CRC Multilube has a temporary blue transparent appearance and does not drip off. To be used on most common friction points on cars, trucks, caravans and at home.

ATV City Part No.	Description	Quantity
210.0115	Lockoil	100ml

Long Lasting, non-greasy lubricant for locks and fine mechanisms. The detergent oil first dissolves and removes the dirt and will not resinify afterwards, providing improved functionality and longer lubrication.

ATV City Part No.	Description	Quantity
210.0120	Chain Lube	200ml

A strong adhering lubricant with anti-corrosion additive. Excellent for the lubrication of friction points that have to withstand bad weather conditions or other rough conditions (salt, cold, hot water) at high speeds. O-ring compatible. Applications: Motorcycles Chains, open gear wheels, open bearings, shafts, spindles etc.

ATV City Part No.	Description	Quantity
210.0130	Adhesive Lubricant	500ml

A lubricant with good adhesion properties. Excellent for the lubrication of friction points that have to withstand bad weather conditions or other rough conditions (salt, cold, hot water) at lower speeds. The special anti-corrosion additives protect the metal parts. O-ring compatible. Applications; Open gear wheels, open bearings, shafts, spindles etc.

## Lubricants - Oil (ctd)

ATV City Part No.	Description	Quantity
210.0140	High Temp Grease	100ml
210.0150	High Temp Grease	400g

A lithium complex grease with EP additive. Ideal for lubrication of bearings (high speed, moderate load) exposed to higher temperatures. Applications; bearings of electro-motors, road construction machines etc.

ATV City Part No.	Description	Quantity
210.0160	Multipurpose Grease	100ml
210.0170	Multipurpose Grease	400g

Multipurpose lithium grease for general machinery lubrication. Reduces friction and wear. Ideal for lubrication of friction and non-friction bearings. Has excellent anti-corrosion properties. Can also be used as a universal lubricant for cars, machinery and tools.

ATV City Part No.	Description	Quantity
210.0180	Super Adhesive Grease	100ml
210.0190	Super Adhesive Grease	400g

Multipurpose lithium grease for general machinery lubrication. Reduces friction and wear. Ideal for lubrication of friction and non-friction bearings. Has excellent anti-corrosion properties. Can also be used as a universal lubricant for cars, machinery and tools.

ATV City Part No.	Description	Quantity
210.0200	Super Longterm Grease	100ml
210.0210	Super Longterm Grease	400g

A black, extreme pressure lithium grease with MOS2. Resists high mechanical loads, impact loads and vibrations. Provides a good oxidation stability and a good corrosion protection. Ideal for universal joints. Application; drive shaft, alternator and coupling bearings.

# WORKSHOP TOOLS AND CONSUMABLES

## Lubricants – Oil (ctd)

ATV City Part No.	Description	Quantity
210.0220	White Lithium Grease	300ml

A white universal grease with PTFE that sprays like an oil and sets like a grease. Provides long lasting lubrication to all moving parts. Reduces friction and wear. CRC White lithium grease leaves a visible white, water resistant film. Applications; hinges, guidings.

ATV City Part No.	Description	Quantity
210.0230	Braklube	100ml
210.0240	Braklube	300ml

A special metal-free lubricant for brake parts, can also be used for aluminium parts. Keeps critical parts free for optimum braking efficiency. Resists water and high temperature. Will not run off callipers and drum brake systems. Prevents corrosion. Do not use on Rotors and friction side of brake pads.

## Lubricant Paste

ATV City Part No.	Description	Quantity
210.0250	Copper Paste Tube	100ml
210.0260	Copper Paste Aerosol	300ml
210.0270	Copper Paste	500g

Effective anti-seize and mounting paste. High quality product based on a drop-free paste with very fine copper powder. Contains anti-corrosion additives, is water resistant and has separating properties up to 1100 degrees C. Used as a paste on screws and bolts, as an effective anti-seize lubricant on connections or on brake pads to absorb disc brake noise.

## Corrosion Protectors

ATV City Part No.	Description	Quantity
210.0280	Zinc	400ml

Cathodic protection, even for damaged galvanised parts. Zinc based coating with excellent adhesion to metal surfaces. The high zinc content is sacrificed during the corrosion process and so provides a galvanic protection of the treated metal. The dry coating contains a maximum amount of zinc (purity 98%) and offers protection, even when the top coat gets scratched. The dry coating is matt and has an excellent surface structure to be painted.
