

# WORKSHOP TOOLS AND CONSUMABLES

## Speciality (continued)

ATV City Part No.	Description	Quantity
210.0380	Super Gasket Remover	400ml

A fast action stripper. Removes baked-on and carbonized deposits of adhesives, putties, gasket cement. Dissolves resins, grease, oil and tar. Strips paints, lacquers and varnish.

## Adhesives and Sealants

ATV City Part No.	Description	Quantity
210.0390	Soft Lock	50ml

A blue coloured medium strength anaerobic adhesive. CRC Soft Lock is used to lock those threaded connections that will have to be dismantled in the future by use of normal tools and without damaging the parts or fittings. Recommended for use on threaded connections from M5 to M16.

ATV City Part No.	Description	Quantity
210.0400	Extra Lock	50ml

A green coloured high strength anaerobic adhesive. CRC Extra Lock is used to lock those threaded connections that do not need to be dismantled in the near future. Also suitable for locking bearings and axles. Recommended for use on threaded connections from M5 to M16, as well as on axles, bearings and bushings.

ATV City Part No.	Description	Quantity
210.0400	Quick Fix	20g
210.0420	Quick Fix	3g

A cyanoacrylate adhesive, designed for general use. CRC Quick Fix has a relatively slow curing time, enabling correct positioning and precise work.

ATV City Part No.	Description	Quantity
210.0425	Rigid Seal	50ml

An orange colored high strength anaerobic adhesive. CRC Rigid Seal is used to seal stiff, machined metal flanges that are used in industrial piping, engine covers, gearboxes and hydraulic or pneumatic installations. Excess of material can be Wiped off with a dry cloth or is dissolved in oil.
