

CRC AIRCO KLEEN

Ref. : 10214

1. GENERAL DESCRIPTION

Removes and prevents unpleasant odours, generated by contamination of the evaporator in the air conditioning system. The CRC Airco Kleen reconditions the air conditioning system in an optimal way by means of its unique application method, leaving a fresh odor in the vehicle.

2. FEATURES

- No difficult disassembling on the airco system needed.
- Eliminates the contaminations from the evaporator and air conducts.

3. APPLICATIONS

- All air conditioning systems in cars, trucks and agriculture machines, especially after a period of inactivity (winter).

4. DIRECTIONS

- Shake well and place upright in the passengers footwell.
- Switch on engine and run air conditioning at full power, set to cold and recirculation with dashboard venting fully open.
- Press the can activator.
- Close all doors and windows.
- Leave engine and air conditioning running in the **unoccupied** car for 10 min.
- Ventilate the vehicle fully with open doors, air conditioning on full power and recirculation off. Ensure complete ventilation.
- A safety data sheet (MSDS) according to EU directive 91/155/EEC and amendments is available for all CRC products.

5. TYPICAL PRODUCT DATA (without propellant)

Appearance	: 200 ml aerosol
Specific gravity @ 20°C	: 0,795

6. PACKAGING

Aerosol: 24 x 200 ml

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment and conditions and the unpredictable human factors involved, we recommend that our products be tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied.

This Technical Data Sheet may already have been revised at this moment for reason such as legislation, availability of components and newly acquired experiences. The latest and only valid version of this Technical Data Sheet will be sent to you upon simple request or can be found on our website: www.crcind.com.
